DANIELSON

Just before 9 o'clock Monday morning C. H. Pellet, owner and operator of bus lines out of Danielson northward to Putnam, to Brooklyn, Central Village, Wausau, Moosau, East Killing, voluntarily withdrew the service, which has been largely patronized by the public for the past two years. During the early morning hours the buses covered their usual routes and on their usual schedules.

Shortly after 9 o'clock, however, prosecuting attorney A. G. Bill ordered Chief John McFarland of the police department to arrest some of the drivers of the bus, that they might be presented in court. Mr. Pellet, however, refused to do so, however, by appearing at the office of Attorney Bill and notifying him that he would voluntarily withdraw the buses, which he did as rapidly as they came in from their runs. Following the withdrawal of the buses Mr. Bill said there would be no prosecutions.

In all probability some of the buses again will be in service this morning but not as jitneys. Representatives of Mr. Pellet were at Hartford during Monday morning hours and under the arrangement there will be certain restrictions to their doing business, but they will be able to operate on the same plan as do taxis. Officials here have been giving their attention to investigation in a case which a "Wausau" young woman is said to have given her life as the result of an illegal operation. It was stated Monday that in all probability the investigation will lead to court action. The Wausau girl who is said to have given her life is described as about 25 years of age. For a few days, early in the month, her condition was so serious that her life was almost despaired of, but she is now declared to be practically out of danger.

Elliott, who was in town on Monday is giving his attention to the enforcement of the state's regulations relative to bringing cattle into Connecticut from other states without complying with the regulations. A considerable number of motorists, even those from distant states having come into Danielson since the garage was in operation. It is reported that the Hampton-Brookline state road is not completed and is almost impassable at some places. These touring motorists have been led into making this route in most cases by the fact that some road maps issued for 1921 show it as a completed state road. This is probably due to the fact that construction of this stretch of highway was commenced in 1920 and the public has taken it for granted that it was completed by that time.

The Connecticut R. C. party, of which Daniel E. O'Connell of this place is a member, is in the Canadian Rockies, en route to Vancouver. The members of the party have anticipated that the territory which they are now traversing will be among the most interesting of the places in the entire schedule of several thousand miles.

The withdrawal of buses during past traveling plans of many who have been staunch supporters of the bus lines since they were inaugurated. These people who travel back and forth on their work each day used the trolley to get home Monday evening and will arrange to travel hereafter according to the accommodations as arranged for them.

If plans that are under consideration for the carrying out there will be some special entertainment at the opening of the 1921-22 season which is to be held at Wildwood park.

Mountville, W. Va.—"I had taken doctor's medicine for nearly two years because my periods were irregular, came every two weeks, and I would suffer with bearing-down pains. A lady told me of Lydia E. Pinkham's Vegetable Compound and how much good it had done for her daughter, so I took it and now I am regular every month and have no pain at all. I recommend your medicine to everyone and you may publish my testimonial, hoping that the Vegetable Compound does some other girl the good it has done me."

How many young girls suffer as Mrs. Tegarden did and do not know where to turn for advice or help. They often are obliged to earn their living by toiling day in and day out no matter how hard the pain they have to bear. Every girl who suffers in this way should try Lydia E. Children continue to flirt with death by playing in the woods where there is heavy automobile traffic. Unfortunately, in many cases, it would appear that mothers are careless of their children's safety, often permitting them to play in the streets while they watch them, but do not warn against the great danger of accidents.

Bouley was fined a like amount on the first count and given a sentence of six months on the second, which sentence was then suspended for six months. Being unable to raise the money with which to pay the fine, he was taken to jail Monday following court.

Baseball and vaudeville served Sunday afternoon to keep in a joyful mood the 1000 fans that gathered on Main street grounds. Putnam, to watch the Night Hawks-Morse team defeat the Worcester, Mass., Collegians. The two teams furnished the baseball and a high class brand at that, while the remainder of the entertainment was provided by Farrell, who was the Worcester team's pitcher. The Worcester team was defeated by Putnam 10 to 3.

As for the baseball, Putnam won 7 to 6. It was one of those games full of ups and downs, with first one side holding the lead and then the other. It was also featured by heavy hitting on both sides which kept things lively for the fans, who wanted to see their favorites win, and much preferred that the otherwise delightful Mr. Farrell should confine his mimicking to the sidelines.
